

New Zealand manufactures optical cables

Overview

New Zealand was one of the first countries in the world to develop a backbone of optical fibre cables for its telecommunications network, using cables supplied by General Cable. In another world first, New Zealand has established high access data networks for the country's three. Our products are built to withstand extreme vibration, temperature fluctuations, and environmental stress — ensuring dependable operation in mission-critical flight and ground support systems. We have been involved in the supply of fibre optic cable and associated infrastructure for over 10 years, during that time we have supplied everything from DTS (Temperature Sensing cable), rodent resistant cable, though to aerial (ADSS, and OPGW), and even at times, Air Blown fibre cable. Pearlyond Technologies New Zealand is an ISO9001 certified fiber optic patch cord cable manufacturer and fiber optic test equipment manufacturer since 2001, We supply OEM fiber optic products to world leading companies, our products include fiber optic patch cord, adapter, fiber optic attenuator.

New Zealand manufactures optical cables
