

North Macedonia Connecting Optical Cable Construction

Overview

Skopje, May 28, 2025 - Today, nearly nine years after the signing of the initial contract, work has commenced on one of the essential infrastructure projects for the country's energy stability, and that is the underground optical cable connecting the Gjorche Petrov substation . Backed by ISO 9001:2008 management system, 30 years of experience, cutting edge technology and highly. Makedonski Telekom has installed the first submarine fibre optic cable in Macedonia with a length of one kilometre, under the surface of Lake Debar. Despite a slight decline in growth rate from 2023-24, the compound annual growth rate (CAGR) from 2020-24 remained strong at.
