

# **Outdoor armored single-mode fiber optic cable with 216 cores**

## Overview

---

Available in configurations from 2 to 216 cores, these cables are ideal for high-voltage areas and long-distance communications. The structure includes: High-performance GYFTY outdoor fiber optic cable with 216 cores, FRP strength member, and PE/LSZH jacket. Corning SST-Ribbon cables represent a truly innovative breakthrough in outside plant cable technology. With 216 individual optical fibers bundled into a single cable, these systems offer. Enhance connectivity with precision Armored Fiber Optic Cable, sometimes referred to as MC Fiber Cable or BX Fiber Cable, is optimized to protect your fiber cable, avoiding any and all unnecessary network downtime as a result of outside interferences. Our unique spiral wrap armoring process preserves cable flexibility while providing unmatched durability in a range of installation environments.
