

PSP fiber optic cable

Overview

This GFRP + CSM + PSP armored stranded loose tube fiber optic cable is designed for high-performance outdoor communication networks. The 5 -12 element multi loose tube cable construction consists of 24 to 144, optical fibres in 12 fibre gel filled loose tubes, SZ stranded around a Fibre Reinforced Plastic (FRP) central strength member with water swellable threads and. It combines non-metallic strength members (GFRP), central strength member (CSM), and steel tape protection (PSP) for maximum durability. It features multiple protective layers to withstand environmental conditions like humidity, heat, and soil acidity.
