

Pairing H3C Optical Module 1310

Overview

This guide provides a comprehensive overview of SFP-XG-LX-SM1310 compatibility with H3C devices, including technical specifications, deployment considerations, verification methods, and best practices for integrating this module into enterprise networks. The SFP-XG-LX-SM1310 optical transceiver has emerged as a popular choice for 10G single-mode applications, offering long-distance transmission capabilities and consistent performance. You must use an SFP transceiver module and optical fiber with an LC connector to connect the fiber port on the AP. It is guaranteed to be 100% compatible with the equivalent H3C® transceiver. The system can also get the LOS (or Link)/Disable/Fault information via of Signal indication.
