

# **Philippines Debugging Terminal Box 8-core**

## Overview

---

The MBN-FOSC-A18-8 is an outdoor 8 core fiber optic termination box designed to serve as a termination point for feeder cables connecting to drop cables within FTTx communication networks. Purpose: This kind of split box is mainly used for family-specific optical fiber protection box with two layers. It facilitates fiber splicing, splitting, and distribution while offering robust protection and efficient. The box is not only used in waterproof situations, but also can be used for indoor cable deployment by replacing ordinary pna fiber adapters and kits.
