

# **Price for closing a residential distribution box**

## Overview

---

For a standard UK home, a full replacement by a certified electrician typically costs between £500 and £1,500, including all parts, labour, testing, and the required certificates. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed. Replacing your Consumer Unit (or fuse box) is one of the most important electrical safety upgrades for your home. However, it naturally raises a host of questions, starting with the most practical one: what will it cost?

This guide cuts through the confusion.
