

Price of connecting a small electrical distribution box

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity.

Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings.

This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. Whether you are an electrical contractor or a construction brigade, knowing how to properly and safely install distribution boxes is the basis of ensuring the safe operation of the entire system. From basic single-family homes to complex industrial spaces, we'll break down the cost of installing a new electrical box.
