

Reset Mobile Fiber Optic Router

Overview

How to restart the fiber router step by step?

Locate the reset button on the back or side of the router. Sometimes a Google Fiber device gets into a state that requires you to restart (also known as "Power Cycle") or perform a factory reset. By restarting the router, possible failures in the system that may be affecting its operation are eliminated. Whether you're experiencing connectivity issues, slow speeds, or simply need to troubleshoot your network, resetting your Google Fiber device can often resolve these problems. In this comprehensive video guide, we'll walk you through the steps to reset, reboot, or restart your AT&T Fiber Router.
