

# **Router fiber optic cable indicator light is red**

## Overview

---

For LOS (Loss of Signal) red lights on fiber or advanced gateways, it usually means the incoming optical line is not detected or has low signal. Double-check that the fiber line is connected properly and that there's no bend or physical damage. However, when it blinks red or stays solid red, it signifies a Loss of Signal, a problem preventing your router from communicating. It can also indicate your router is undergoing a firmware update, temporarily losing its link to the internet or local network.

## Router fiber optic cable indicator light is red

---
