

Scrap optical cable

Overview

Can You Scrap Fiber Optic Cable?

Absolutely! If you've got a reasonable amount of these cables, you can scrap them. Fibre cable salvage offers not only an environmentally friendly solution but also a lucrative opportunity for those who understand its true value. Our unique service includes on-site weighing of materials, which we collect from your location. " Fiber is glass + plastics + strength members, and it often shows up on bulky spools—so it needs the right route, not a random scrap bin. If you want to transfer a ton of data within minutes, you can use a fiber optic cable because it transfers it in the form and at the speed of light. Therefore, it comes in handy in various fields, and more particularly to the individual user. Fibre optic cables allow us to instantaneously communicate with each other and transmit data over vast distances via the internet, and there are tens of millions of miles of this crucial cable currently in use around the world.
