

Secondary distribution box white

Overview

IP40 Surface distribution boxes with 12, 18, 24, 36 and 54 modules of capacity. When several items are sent together, they are bundled together with transparent film. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. The Secondary Distribution Box (SDB) receives power from Main Power Distribution box via an extender cable and provides a central power distribution to feed normal branch circuits to the electric floor modules through snap-on extender cables.
