SELECTION GUIDE

From high frequency relays for antenna switching to power control relays for end-user equipment, TE's relay products offer the vast communications market an array of components.

Agastat / TE Connectivity Speciality Relays Selection Guide

Applying voltage to the coil (for at least 50 msec) will transfer the switch, breaking the normally closed contacts (1-5 and 2-6), and making the normally open contacts (3-5 and 4-6).

PRODUCT GUIDE RED615 Line differential protection and control

1. Description RED615 is a phase-segregated two-end line differential protection and control relay designed for utility and industrial power systems, including radial, looped and meshed distribution
