

Size of the bridge in Democratic Republic of Congo

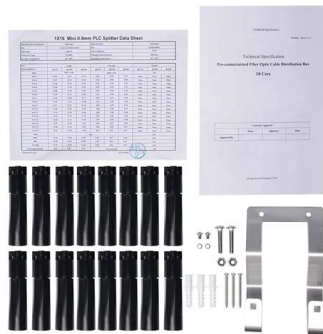

Overview

The bridge will span the Congo River, measure 1,575m in length and will cost in the region of US\$550 million to build. The Brazzaville-Kinshasa Bridge is a proposed road-rail bridge construction project over the Congo River. It would connect the Republic of the Congo with the Democratic Republic of the Congo at their respective capitals, Brazzaville and Kinshasa. The project estimated to cost \$550m will include a toll bridge, a railway track, a road and a sidewalk, a statement cited by the Bloomberg. It's 2050 and a few months ago, our country, Congo Brazzaville, took a giant step along the path to its development and regional integration.
