

Solution to red light on router fiber optic cable

Overview

For LOS (Loss of Signal) red lights on fiber or advanced gateways, it usually means the incoming optical line is not detected or has low signal. Double-check that the fiber line is connected properly and that there's no bend or physical damage. However, when it blinks red or stays solid red, it signifies a Loss of Signal, a problem preventing your router from communicating. Before you panic or call tech support, there are several simple fixes you can try at home that often solve this problem in minutes.

Solution to red light on router fiber optic cable

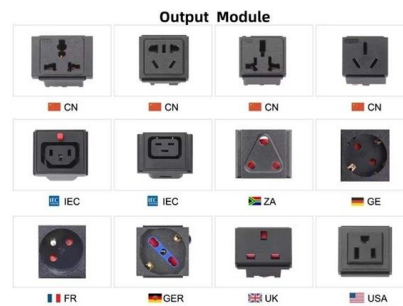

Red LOS came on and I don't know how to fix it? (Optic)

Issue was that they used a shitty fibre coupler instead of properly splicing the cable or something like this (don't understand fibre too much). They came back with
