

Steps for removing cable trays in the computer room

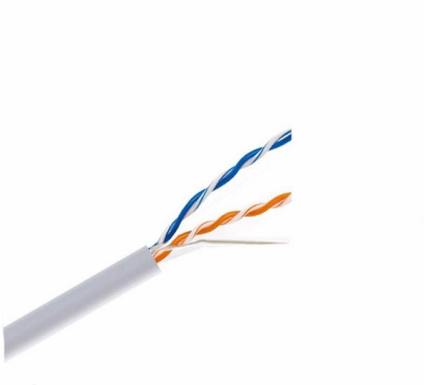

Overview

Before beginning the cable removal process, thorough planning is crucial. Choosing the right PC case for cable management is key to keeping your PC clean and organized. It's a three-part process: taking the old stuff down, putting the new stuff up, and sorting out the cables. Turn Off the Power: Before touching anything, we must make sure the power is off. Typically, you will find power cords, HDMI cables, Ethernet cables, USB cables, and possibly audio cables in a standard setup.
