Swiss optical cable pulling machine manufacturer

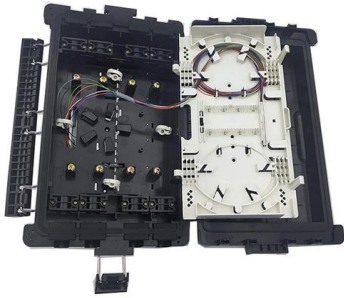

Overview

The SwissOptic AG is based in Switzerland - your long-term and trusted partner along the entire value chain - from concept to volume production. The EZ-SYSTEM-X is a compact rope blower to blow in ropes and cable pull lines, made of chrome steel and aluminum. Particularly noteworthy is the globally unique axial sealing, which makes the blowing process both simpler and more efficient and guarantees increased work safety. Engineering high-performance infrastructure tools for the Swiss alpine and urban landscapes, ensuring seamless cable installation in the most challenging terrains. As a trusted designer, manufacturer, and producer, we bring unparalleled precision, reliability, and adaptability to every project. Identify and compare relevant B2B manufacturers, suppliers and retailers The company, Diamond SA, specializes in manufacturing high-performance fiber optic interconnects, including the only single-channel fiber optic interconnect qualified by the European Space Agency.
