

Syropy AI Connectivity

Thai Micro Module Manufacturer

Overview

The Thai Microelectronics Center (TMEC) is a specialized semiconductor foundry dedicated to the design and fabrication of customized MEMS devices and advanced sensors. We manufacture the highest quality products and continuously upgrade our capabilities to meet our customers' current and future requirements within the areas of Microelectronics "PCBA", Semiconductor Integrated Circuit "IC" and Microdisplay assembly and test. We take incredible care to make sure that all of our products not only meet, but. Our mission is to serve as a strategic partner for MEMS and sensor startups, enabling their successful transition from prototype to. The Thailand Semiconductor Market Report is Segmented by Device Type (Discrete Semiconductors, Optoelectronics, Sensors and MEMS, and Integrated Circuits), Business Model (Integrated Device Manufacturer, and Design/Fabless Vendor), End-User Industry (Automotive, Communication, Consumer, Industrial.

Thai Micro Module Manufacturer

Top 11 popular PCB manufacturers in Thailand

It's said that the annual export value of Thailand's PCB achieves 7,155.14 million US dollars. In this article, we are going to introduce top 11

Top 19 Semiconductor Companies in Thailand (2026)

Discover all relevant Semiconductor Companies in Thailand, including Stars Microelectronics (Thailand) and Bluechips Microhouse Co., Ltd.

Stars Microelectronics : Innovation in Thailand

Providing Electronics Manufacturing Services to Original Equipment Manufacturers and Outsourced Assembly and Test customers, Stars

Thailand eyes becoming fourth largest producer of

Thailand is looking to increase its global electronics circuit market share to become the fourth largest producer and is setting up a national Electronics Circuit Centre

Empowering Innovation , Microchip Technology

Microchip Technology is a leading provider of microcontroller, mixed-signal, analog and Flash-IP solutions that also offers outstanding technical support.

PRODUCTs

A Japanese ITC-acquired electronics trading company that also has an ISO-certified assembly plant Please feel free to contact us for domestic and overseas

Thai Microelectronics Center (TMEC)

Thai Microelectronics Center (TMEC) is a research unit under National Electronics and Computer Technology Center (NECTEC). TMEC core technology is the silicon process technology focusing on

Bluechips Microhouse , Electronic Manufacturing

Bluechips offers a full turnkey solution to our customers; with capabilities in product design and development, New Product Introduction as well as world-class

25 companies for Electronics Manufacturing in Thailand

The Electronics Manufacturing industry in Thailand offers a dynamic landscape for businesses and investors. Key considerations include understanding local

PCB manufacturing in Thailand poised for exponential

Thailand is poised to cement its position as ASEAN's leading printed circuit board (PCB) manufacturing base, with the goal of ranking in the world's top

Bluechips Microhouse , Electronic Manufacturing

Bluechips Microhouse is a German, family-owned EMS company operating out of Chiang Mai, Thailand. For more than 20 years, Bluechips has been the contract

Top 8 PCB manufacturers in Thailand

As an important economy in Southeast Asia, Thailand is actively attracting the investment of global PCB manufacturing companies. At present, many PCB manufacturers from China, South

Nisshinbo Micro Devices (Thailand) Co., Ltd.

We can supply Front-End modules in Marine Radar Components and sensor module that are tailored to the customer's needs. We are automated test system

Top Semiconductor Companies in Thailand , The Grid

Dive into top Semiconductor businesses in Thailand. Discover scale, workforce size, funding, and executive contacts.

Thailand Semiconductor Market Size, Share, 2025-2030

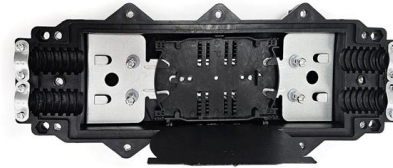

Hana Microelectronics PLC, Western Digital (Thailand) Co., Ltd., Silicon Craft Technology PLC, Stars Microelectronics (Thailand) PLC and ROHM

ABOUT TMEC - TMEC

The Thai Microelectronics Center (TMEC) is a specialized semiconductor foundry dedicated to the design and fabrication of customized MEMS devices and

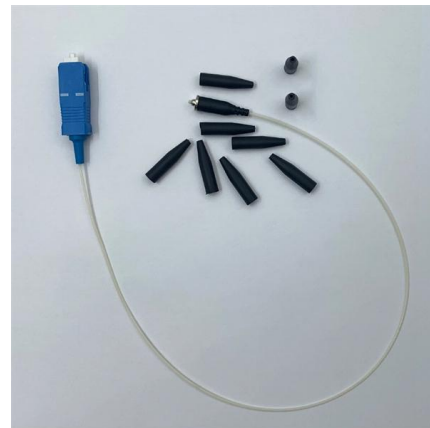

Top 19 Semiconductor Companies in Thailand (2026) , ensun

Discover all relevant Semiconductor Companies in Thailand, including Stars Microelectronics (Thailand) and Bluechips Microhouse Co., Ltd.

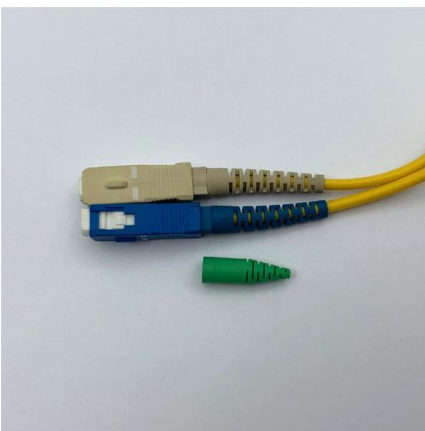

Infineon to start up Thai power module fab in 2026 Semiconductor

Infineon to start up Thai power module fab in 2026 Semiconductor German chip company broadens manufacturing base in Southeast Asia Germany's Infineon Technologies has begun

Thai Microelectronics Center

Introduction The Thai Microelectronics Center (TMEC) was approved by the Thai government on October 3, 1995 as an Integrated Circuit (IC) Fabrication R& D

Electronic Manufacturing Services (EMS)

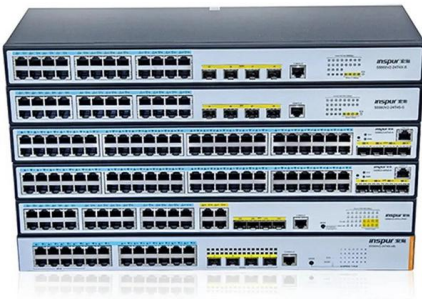

We manufacture the highest quality products and continuously upgrade our capabilities to meet our customers' current and future requirements within the areas of Microelectronics "PCBA",

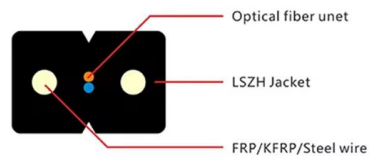

Stars Microelectronics (Thailand) PCL o Home

STARS Microelectronics (Thailand) Public Company Limited, or SMT, a Thai electronic components manufacturer and assembler, continues to strengthen its environmental standards by receiving the

Infineon breaks ground on power module assembly plant

Infineon Technologies has started construction of a new highly automated backend plant in Samut Prakan, south of Bangkok for power modules.

MEMS - TMEC

Our aim is to develop MEMS (microelectromechanical systems) devices and sensors from design concept through prototyping, integration, testing, small-mid volume

PrimRoot: Energy & Solar Products Supply Chain Center

Hier sollte eine Beschreibung angezeigt werden, diese Seite lässt dies jedoch nicht zu.

Convenient Guide to PCB Manufacturers in Thailand

Reading this article on PCB manufacturers in Thailand will highlight the importance of choosing a reliable manufacturer.

Microelectronics Companies in Thailand , Siam Business Guide
