

The distribution box track is too long

Overview

Possible cause: Distribution manager does not have access to either the package source directory or the distribution point. Distribution Package taking long !! Hello, I have several packages which are taking forever to be distributed to a Specific Distribution Point Server We are the 9/28/2021 and the package is still "in progress" which log (s) should I check for potential issue (s)?

Am I supposed to see the same GUIDs. If I check the content status all I get is details will be available after the server finishes processing the messages. Some reasons Windows displays the above error are that your ZIP's file name is too long, your parent folder has a lengthy name, your ZIP itself has a problem, and File Explorer is acting up. This thread may be some help! Anybody else getting this error when trying to install liveries from flightsim. error details point to the possible causes below, having read through my money is on long file names being the issue - however, how can I resolve this without breaking the MSI?

the longest folder is "360 ScienceATProgram FilesEdexcelGCSE 360Science ActiveTeachcontentsettings_teacher" but it. If the Packages Being Processed values do not change and are stuck over a long period of time, it is possible that DistMgr is hung/stuck.
