

The optical port light on the switch is not working

Overview

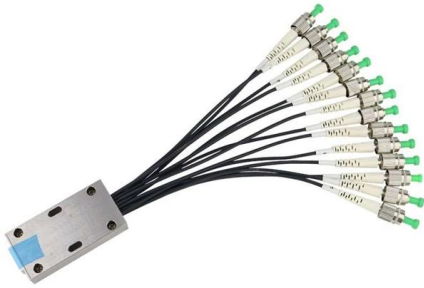

If the link light for the port does not come on, you can consider these possibilities: Connect cable from switch to a known good device. Hello, from your output I can't see which type of QSFP you have installed, your QFX discovers. I have an issue with some EX2300 series images where the optical ports allow traffic, but the led stay. What would cause 2 trunks to not at least go UP/DOWN when there is light going to both switches?

Does anyone have any other ideas?

Here's some more info: 3650 is running IOS-XE 3. Summary: The purpose of this guide is to provide general guidelines for troubleshoot layer 1 connectivity issues when using transceivers in Ethernet switches. Status Light: An LED indicating the system's operating status, usually a dual-color (red/green) light. It flashes green during the initialization phase, remains solid green after successful initialization, and turns red when a system fault occurs.

The optical port light on the switch is not working

Optical Module Application: Common Problems & Troubleshooting

Based on typical issues encountered with optical modules in daily switch applications, this document summarizes basic troubleshooting steps for resolving common faults:

Fiber port of switch does NOT working

2960X switch = 1/4 port is currently plugged with Cisco GBIC module. - I plugged new Fiber cable with new GBIC module, but switch port is NOT working (no blinking).

16 Tips to Troubleshoot Your Optical Transceiver Issues

The switch port may be faulty, or the optical transceiver may be overheated. If the optical transceiver is overheated, it will cause the switch port to

Troubleshoot Switch Port and Interface Problems

This document describes how to determine why a port or interface experiences problems.

Troubleshoot Switch Port and Interface Problems

If a port has a solid orange light, this means the software inside the switch shut down the port, either by way of the user interface or by internal processes. Note: Some port LEDs of the

Network Switch Troubleshooting Guide: Common
