

Thermo 8860 Spectrometer

Overview

The ARL iSpark 8860 Plus is based on Thermo Scientific's most trusted one-meter focal length, vacuum purged, PMT spectrometer with Paschen-Runge mounting. The spectrometer offers optimal resolution and stability and ensures outstanding performance for all the elements. The Thermo Scientific™ ARL™ iSpark 8860 Fire Assay Analyzer is a top of range spark OES specially tuned for the analysis of fire assay lead buttons. Have Questions?

Traditional fire assay analysis is labor-intensive, expensive and environmentally harmful.

Thermo 8860 Spectrometer

ARL iSpark 8860 Inclusion Analyzer

The ARL iSpark 8860 Inclusion Analyzer with Spark-DAT has unparalleled speed for inclusion analysis in steel. Thanks to Spark-DAT methods, inclusion data are

ARL(TM) iSpark Plus Fire Assay Analyzer : Quote, RFQ, Price and Buy

The analyzer is the first optical emission spectrometer on the market to combine full elemental coverage with rapid characterization of non-metallic inclusions in a single analysis.

ARL(TM) iSpark 8860 Fire Assay Analyzer

The Thermo Scientific(TM) ARL(TM) iSpark 8860 Fire Assay Analyzer offers a simple, clean alternative to the traditional cupellation and analysis stages by using spark

ARL iSpark Plus Inclusion Analyzer Inclusion Analyzer , Request for

ARL iSpark Plus Inclusion Analyzer. ARL iSpark 8860 Inclusion Analyzer is an optical emission spectrometer specially designed to simultaneously perform elemental and inclusion analysis in steel.

ARL iSpark 8860 Inclusion Analyzer

The Thermo Scientific™ ARL™ iSpark 8860 Inclusion Analyzer allows ultra-fast determination of elemental concentrations and characterization of non-metallic inclusions in a single analysis. It is

Monitor Non-Metallic Inclusions in Steel , Thermo Fisher

The ARL iSpark 8860 Inclusion Analyzer is the first optical emission spectrometer on the market to combine full elemental coverage with rapid characterization of non

Optical Emission Spectrometers Product Range

The unrivaled reputation of the Thermo Scientific optical emission spectrometers is based on our extremely large installed base of OES spectrometers and their key attributes: accuracy, performance,

Thermo Scientific Launches ARL iSpark 8860 Inclusion

The ARL iSpark 8860 Inclusion Analyzer is the first optical emission spectrometer on the market to offer a combination of full elemental coverage and

Analysis of lead and its alloys with ARL iSpark 8860 Plus Optical

The ARL iSpark 8860 Plus is based on Thermo Scientific's most trusted one-meter focal length, vacuum purged, PMT spectrometer with Paschen-Runge mounting. The spectrometer offers optimal

ARL(TM) iSpark 8860 Fire Assay Analyzer

Traditional fire assay analysis is labor-intensive, expensive and environmentally harmful. The Thermo Scientific(TM) ARL(TM) iSpark 8860 Fire Assay Analyzer offers

Analysis of zinc and its alloys with ARL iSpark 8860 Optical Emission

Analysis of zinc and its alloys with ARL iSpark 8860 Optical Emission Spectrometer Since 1934, our company has set the standard of quality for spectrochemical analysis of metals. Throughout these

Analysis of lead and its alloys with ARL iSpark 8860 Plus Optical

The trusted standard The ARL iSpark 8860 Plus is based on Thermo Scientific's most trusted one-meter focal length, vacuum purged, PMT spectrometer with Paschen-Runge mounting. The spectrometer

Thermo Scientific Launches ARL iSpark 8860 Inclusion

Thermo Fisher Scientific, a global leader in scientific solutions, has introduced the latest addition to its ARL iSpark Series Optical Emission

ARL iSpark Series

The Thermo Scientific IntelliSource is Thanks to an innovative computer controlled argon The design of the spark stand of the ARL iSpark double current controlled source circuit design, the argon

ARL iSpark Plus Inclusion Analyzer

ARL iSpark Plus Inclusion Analyzer. ARL iSpark 8860 Inclusion Analyzer is an optical emission spectrometer specially designed to simultaneously perform elemental and inclusion analysis in steel.

ARL iSpark Plus Inclusion Analyzer

ARL iSpark 8860 Inclusion Analyzer is an optical emission spectrometer specially designed to simultaneously perform elemental and inclusion analysis in steel. Available in Inclusion Analyzer.

ARL iSpark(TM) Series Optical Emission Spectrometer

This product has been replaced as of September 2023 with the Thermo Scientific(TM) ARL(TM) iSpark Plus Series OES Metal Analyzer. Please [click here](#) to learn more

Optical Emission Spectrometry

Analysis of copper with ARL iSpark 8860 Optical Emission Spectrometer Since 1934, our company has set the standard of quality for spectrochemical analysis of metals. Throughout these years, accuracy,

Optical Emission Spectrometry

Analysis of tin and its alloys with ARL iSpark 8860 Optical Emission Spectrometer Since 1934, our company has set the standard of quality for spectrochemical analysis of metals. Throughout these

Thus, the Thermo Scientific ARL iSpark 8860 Fire Assay Analyzer offers a simple, clean alternative to the traditional cupellation and analysis stages by using spark

Analysis of iron and steel with ARL iSpark 8860 Optical Emission Spectrometer Since 1934, our company has set the standard of quality for spectrochemical analysis of metals. Throughout these

THERMO FISHER SCIENTIFIC announced the latest entry in its range of ARL iSpark Series optical emission spectrometers, the Thermo Scientific(TM) ARL

The Thermo Scientific(TM) ARL(TM) iSpark Plus Fire Assay Analyzer offers a simple, clean alternative to the traditional cupellation and analysis stages by using spark optical emission spectrometry (OES) to

ARL(TM) iSpark Plus Fire Assay Analyzer ARL iSpark 8860 Fire Assay

The Thermo Scientific(TM) ARL(TM) iSpark Plus Fire Assay Analyzer offers a simple, clean alternative to the traditional cupellation and analysis stages by using spark optical emission spectrometry (OES) to

Huijue engineering specific Fiber optic

HJ GROUP offers a wide variety of product types for you to choose from.
