

Ukrainian Agent for 100G Optical Router

Ukrainian Agent for 100G Optical Router

UHP 100 Satellite Router

UHP-100 is equipped with two high-speed demodulators together with their independent IF inputs and front ends. The router can simultaneously receive two

Ukrainian Developers Demonstrate Fiber-Optic Drone

Ukrainian developers have demonstrated new capabilities of fiber-optic communication systems integrated into various types of drones.

Datagroup Takes Internet Speeds to New Heights with

Datagroup is building a high-speed data transmission network in Ukraine with Cisco Routed Optical Networking and Converged SDN Transport to

Ukrainian Optical Facilities for Near Earth Space

Ukrainian Optical Facilities for Near-Earth Space Surveillance Network, the UMOS (from Ukrainian acronym: ???? = ?????????? ?????? ?????????? ?????????? ?????????? ??????????????????)

Ukraine's Eurotranstelecom Deploys 100G with Ciena

Ukrainian-based Eurotranstelecom has commercially deployed 100G technology in its nationwide backbone network covering the key regions in Ukraine and linking it to Russian, Polish,

A Ukrainian weapons maker is building a new unjammable drone with a 100

A Ukrainian company says it's developing a new fiber-optic drone with a range of up to 100 kilometers. This would be a major upgrade for what has emerged as one of the most important weapons in

Datagroup Deploys New 100G Network from Ekinops as Alternative Route

Ukrainian operator Datagroup has deployed a new Ukraine-to-Germany optical network, using equipment from Ekinops to establish an 1100-mile shorter route that increases transmission efficiency.

Ukraine's Eurotranstelecom taps Ciena for 100-Gbps coherent optical

With this deployment, ETT extends its original 100-Gbps network connecting Kiev and Kharkov to cover all major Ukrainian regional centers, including Lvov, Donetsk, Odessa, and Dnepropetrovsk. It also

Visit Ukraine

Massive rocket attacks have caused significant damage to Ukraine's critical infrastructure. As a result, the population is forced to experience

Datagroup Deploys New 100G Network from Ekinops as Alternative Route

Ekinops, a leading supplier of next-generation optical network equipment, announced today the completion of the deployment over a fiber-optic network that stretches 1,783 kilometers

Datagroup Chooses EKinops for Deployment of Coherent 100G

Ekinops, a leading supplier of next-generation optical equipment, announced that Datagroup, a major Ukrainian telecommunications operator, has chosen EKinops as its 100G

Ukrainian Ground Drones Gain Jamming-Resistant

Ukraine has demonstrated the integration of a fiber-optic communication system into a ground-based unmanned platform.

List of Optical fiber cable Importers in Ukraine

Find Optical fiber cable importers in Ukraine with trade data, HS codes, shipment records, ports & buyer details to support import export business growth.

Internet in Russia

In addition, the expanded backbones are in the route of Khabarovsk - Nakhodka - Tokyo and Khabarovsk - Hong Kong, where equipment of 100G WDM is also

Russian Fiber Optic Drones Are Reaching Farther Into

Fiber optic drones are more accurate, more deadly, and harder to intercept than any previous drone model--with major potential consequences for

Telecommunications in Ukraine

Telecommunications is one of the most modern, diverse and fast-growing sectors in the economy of Ukraine. Unlike the country's dominating export industries, telecommunications, as well as the

Datagroup Chooses EKINOPS for Deployment of Coherent 100G Across Ukraine

Ekinops, a leading supplier of next-generation optical equipment, announced that Datagroup, a major Ukrainian telecommunications operator, has chosen EKINOPS as its 100G

Last year, 4.2M Ukrainians switch to fiber-optic internet

"Last year, we focused on scaling xPON so that people could stay connected during power outages, and 4.2 million Ukrainians switched to fiber

Datagroup Deploys New 100G Network

from Ekinops as Alternative

Datagroup, a major telecommunications operator in Ukraine, has deployed a new network, based on Ekinops equipment, connecting Ukraine to Frankfurt over a new route through

Estimating High-speed Broadband Coverage in Ukraine

The analyses in this post are excerpted from the World Bank recommendations report on the National Broadband Strategy for the Government of Ukraine. The

Internet in Ukraine and Europe: comparison of service

By the way, gigabit Internet, which is faster than the maximum standards, is also available in Ukraine. Equipment and technology Until February

ETT upgrades Ukrainian network to 100G , Capacity Media

Ukrainian operator Eurotranstelecom (ETT) has upgraded its eastern European backbone network to 100G, which it claimed is the first commercial deployment at that performance level in the

Ukrainian Operator Datagroup Deploys Cisco Routed

Datagroup, a leading Ukrainian telecom operator for business and home users, launched a large-scale national project to modernize its backbone

11 companies for Fiber Optic Telecommunications in Ukraine

Understanding these factors will provide a comprehensive overview for anyone interested in entering or investing in the fiber optic telecommunications market in Ukraine.

Datagroup Deploys New 100G Network from Ekinops as Alternative

Ukrainian operator Datagroup has deployed a new Ukraine-to-Germany optical network, using equipment from Ekinops to establish an 1100-mile shorter route that increases transmission efficiency.

Ukraine's New 100-Km FPV Drone Ditches Radio to

Ukraine's Fold is building a fiber-optic FPV drone with 100-km range, immune to jamming, and hard to stop.

Transforming Edge Networks Expansions , Coherent

Network operators can now deploy the Coherent 100G QSFP28-DCO on any standard 100G port-equipped switch or router. This capability delivers a

Ukraine Optical Communication and Networking Equipment

Companies operating in the Ukraine optical communication and networking equipment market have the opportunity to capitalize on these trends by offering innovative solutions tailored to the specific needs
