

Using a wireless router with 100Mbps fiber optic internet

Overview

Yes, you can often use your existing router with fiber optic internet, but there are crucial considerations. Understanding compatibility, potential limitations, and when an upgrade is necessary will ensure you get the most out of your high-speed connection. Fibre optic broadband require a modem or Optical Network Terminal (ONT) to connect to your wireless router. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process.
