

Waterproofing and safety measures for network server racks

Overview

Learn effective strategies to safeguard server racks from water damage, including tips on placement, sensors, and flood prevention techniques. Imagine walking into your server room, only to find equipment soaked from an unexpected leak or a minor flood. This article provides a comprehensive guide to waterproof enclosure design, with a particular focus on server chassis applications. NEMA 12 enclosures are constructed for indoor use and provide a degree of protection to internal equipment against circulating dust, falling dirt, lint, and fibers. Built to NEMA 4X from stainless steel, Armagard's Waterproof Rack Mount Cabinet can safely house conventional rack-mountable equipment up to a maximum capacity of 18U.

Waterproofing and safety measures for network server racks
