

What is a JLM distribution box

Overview

JLM sells a number of behind-the-meter (BTM) products, but its best-seller is a clever compact box that is mounted underneath each solar panel and uses lithium iron phosphate batteries. The product range of enclosures and distribution boards includes service entrance boxes and pillars, small distribution pillars and standard cable distribution cabinets as well as low-voltage distribution boards. Enclosures are available both empty for customers to install their own equipment or. What is the difference between a junction box, a distribution box and a terminal box ?

Junction box - where wires are spliced together or where conduits meet (wires don't necessarily need to be spliced in it. Distribution box - another term for panel board, electrical panel, fuse box, etc Terminal. It acts as the central point where electricity distribution is managed inside a building.
