

What quota should be applied to West Asian pigtail jumper wires

Overview

The amount of tariff quota to be applied in each import period was determined as 45 thousand 665 tonnes in total. Quota information is issued for the trade community by the Quota and Agriculture Branch within the Office of Trade. A tariff-rate quota (TRQ), also called a tariff quota, is a trade mechanism used by governments and international organizations that allows a certain quantity of goods to be imported at a reduced or zero tariff rate for a specific period of time.

What quota should be applied to West Asian pigtail jumper wires
