

X2cs optical module

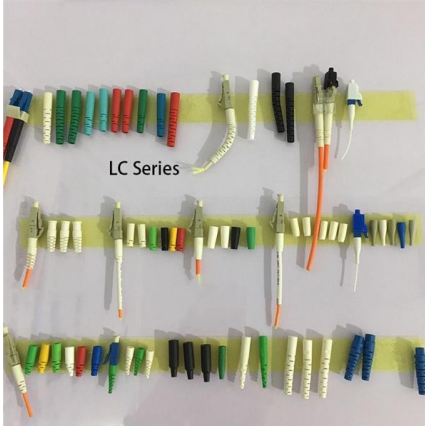

Overview

X2CS uplink board is a 2 port 10GE uplink optical uplink card of Huawei OLT. This card offers upstream or cascading optical ports. After the jumbo frame function is enabled, a maximum of 9216 bytes can be supported. We are so glad to find Fiberolt via google, they help us delivered 300pcs X2CS project without any delay. TX/RX power test ensures that the optical power are within the thresholds; remove the aged optical module with power loss, and the fake module with counterfeit label.
